# COMPANY PROFILE

SUNTOUCH POLYPACK is a respected manufacturer and supplier of the products such as Circular PP Woven Fabric, Flat PP Woven Fabric, Bopp Laminated Bags and much more.

We are engaged in offering our clients a wide assortment of Woven Fabrics & Roll This are widely manufactured using optimum grade raw materials sourced from the reliable vendors of the market. These fabrics are generally packed in roll form and can be run on automatic cutting, stitching machines and are supplied in cut form sheets.

Innovate on designing and technological front. Stay updated and evolve continuously as per market trends. Create a fruitful working environment.

# Our Products

# PP Woven Fabrics

Circular Fabrics and Tapes manufactured with their respective world-class technologies available in the industry. In our fabric production, we take predefined strict quality measures and technical parameters that make our product almost flawless with a minimum of 1% defect. Polypropylene fabric consists of hydrophobic which restricts the possibility of moisture in the fabric and further, it extracts the moisture vapor away from the skin. Modern machinery and the adopted strategy of orientation on buyers' individual needs enable us to manufacture fabrics that satisfy all the requirements of our customers.

## APPLICATION

**POLYPROPYLENE  
WOVEN BAGS**

**WRAPPING**

**FIBC BAGS**

**GEO TEXTILES**

# Circular PP Woven Fabric

PP(Polypropylene)circular woven textures are utilized to change over PP woven Sacks/packs. The PP woven sack is mostly utilized for bundling in every significant market including the development, concrete, family unit, manure, sugar, and some more. Also, the PP Woven Sack is a perfect bundling for mass material because it has higher elasticity, strength, and low weight.

We export the PP Circular light and heavy weight fabric which are mainly used for the manufacturing of PP (Polypropylene) Small Bags by providing 100% customized PP fabric including size, GSM, color, Constructions and all the parameters as per required specifications. In addition to the PP Woven Sack, the circular fabric is widely used for the making of the Bale wrap, box bags, PP Courier bags, PP perforated bags.

# PP Woven Bags

SUNTOUCH POLYPACK is one of the leading PP bag manufacturers and in India and exporter in the international market. Owing to long experience, we offer the best quality bags, tailored to customer's specifications. PP bags are largely flexible, durable, and cost-effective, which makes them highly usable in packing and transporting bulk commodities. We are the global leaders in manufacturing PP woven bags as per the specifications given by the client in a variety of sizes, colours, and quality.

## SPECIFICATIONS

**ASSURED DURABILITY**

**BAGS WITH UV STABILITY**

**WATER AND DUSTPROOF BAGS  
WITH PP LINERS AND LAMINATION**

**HUMIDITY RESISTANT,  
ANTI-SKID PRINT**

**FULLY RECYCLABLE**

# BOPP Bags

Biaxially Oriented Polypropylene is a propylene film that has been stretched using two machines across both directions. Available in various standard specifications, our bags have high transparency, clarity, and excellent tensile strength. Great durability and lasting prints embossed on the bags make the right representation of the brand. We also kept them cost-effective which makes them best suitable for the bulk orders.

## SPECIFICATIONS

**EXCELLENT CLARITY**

**CORONA TREATMENT ON BOTH SIDES**

**GOOD DIMENSIONAL STABILITY AND FLATNESS**

**HIGH TENSILE STRENGTH**

**HIGH GLOSS**

**REVERSE PRINTING ABILITY**

**WATERPROOF**

# FIBC Bags

Flexible Intermediate Bulk Containers (FIBC) are the most popular form of bulk goods packing bags.

Majorly useful for the transport and storage of loose materials, these flexible containers are available in a wide variety and therefore are suitable for a number of applications in the food, minerals, chemicals, and agriculture industries. FIBC Bags are manufactured with different numbers of lifting loops, such as there can be one, two, or four as per customer's request and are also available with LDPE liners to allow safe storage of highly hygroscopic goods. Bags stitches can be additionally sealed for specific material.

## TYPES WE MANUFACTURE

- Regular Jumbo Bags (Type A)
- Anti-static Jumbo Bags (Type B)
- Conductive Jumbo Bags (Type C)
- U + 2 and Circular Bags
- Ventilated Bags  
(With and without Interlocking)
- Liners with or without Tabbing
- Glued Liner bags
- Certified Food Grade bags from Clean Room production
- Dust Proof Bags
- Baffle Bags
- Tunnel Lift Loop Bags
- Bottle Shaped/Pre-Shaped Liner Bags
- Bags for Hazardous commodity (UN Bags)
- Single Loop and Two Loop bags

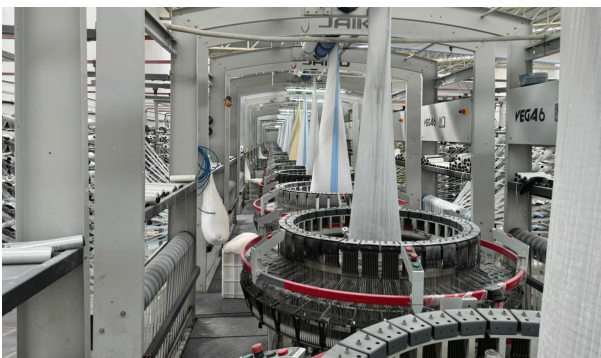

# Infrastructure

We own the state-of-art infrastructures in our manufacturing plants. Being the most reliable bulk bag and fabrics manufacturer and supplier, our key unit in morbi, Gujarat.

Expanding further, we have completely functional and technologically empowered plants in Gujarat with a production capacity of 1800 metric tonne.

Instilled with ultra-advanced technologies, our JP plant has spread of 125+ JP weaving looms, highly advances lamination plant and functional BCS (Bag Cutting & Stitching) Machines.

We combine the right machines and resources to create our overall shares spaces of 1,25,000 sq.ft., that has superior machines, advanced techniques, and expert employee force of 100+ people. Suntouch Polypack produces 15,000 tons of polymer-based fibre and industrial bags and the production capacity is rapidly increasing year-over-year to serve the needs of customers.

“

**Quality** is not **Expensive**,  
it's **Priceless**.
